Fred,

I sent all of the data you are requesting on March 30th. See the email below. We are working up the data on the radium-226.

Cindy,

As always thanks for the assistance your lab has been providing. I need a few updates on a few outliers identified by the data management team:

We are still waiting to see if NAREL can provide the following csv files: 1100243e.th, 1100243-gamma, 1100244-gamma, 1100245-gamma, 1100246-gamma, 1100248-gamma

We also do not have Ra-226 data for sample delivery groups: 1100244, 1100245, 1100246, and 1100248.

We are still waiting on the fifth week's worth of radiation data.

Thanks again.
Fred

Fred,

The email below contains the electronic versions of your data for the Dimock project. You should receive the hardcopies today or Monday. We have not completed analyzing all samples yet but we hope to do so in the next couple of weeks.

If you have any questions, please let me know, and we thank you for sending this work to us.
